To whom it may concern,

I hope and pray all is going well. I want to thank you for the opportunity to write a reference letter in relation to Jerry Nettrouer.

I met Jerry through a friend when I was employed at Evergreen Baptist Church. Evergreen Baptist Church was in need of building a network server using Linux software and hardware. Jerry was able to come to the church and get things up and running when we couldn't find anyone else. Our options were limited with using Linux Software and Hardware as we quickly found few people were qualified in understanding the technical language needed to get a system like Evergreens up and running.

The whole process was a pleasant experience when dealing with Jerry. While getting things set up I found Jerry to be very cordial, willing to answer all our questions and able to get the job done. Even when we had questions weeks down the line he was willing to take the time to answer them. He was even willing to resolve any technical issues by coming back to the church to get things done as requested. He was truly a professional.

I have owned R and R Painting and Remodeling for year and a half. It has been my desire to use young men like Jerry to build their skills so that they become more qualified for future employment. I would recommend Jerry Nettrouer to anyone needing his services or any business needing to hire him for future work or employment.

I hope and pray this letter allows you to see a clearer picture of why Jerry is qualified for any endeavor he is seeking in the technological field. If there are any questions I might be able to personally answer for you please feel free to call me at your convenience. Please refer to the number stated in the letterhead.
